Subsequent Events

Theatre portfolio acquisition

In addition, on April 21, 2014, the Company acquired 11 theatre properties for a total purchase price of approximately \$117.7 million including the assumption of a mortgage loan of \$90.3 million, which will be booked at fair value. The properties are located in Georgia, Illinois, Indiana, Kentucky, Missouri, Pennsylvania and Tennessee and contain an aggregate of approximately 139 screens. The theatre properties are leased on a triple net basis under a master lease agreement to a subsidiary of Regal Cinemas, Inc. with a remaining initial lease term of approximately 13 years.

Sale of four public charter schools

On April 2, 2014, the Company completed the sale of four public charter school properties located in Florida and leased to affiliates of Imagine Schools, Inc. for net proceeds of \$46.1 million. Accordingly, the Company reduced its investment in a direct financing lease, net, by \$45.9 million which included \$41.5 million in original acquisition cost. A gain of \$0.2 million will be recognized during the three months ended June 30, 2014. This transaction, along with the above announced investments, demonstrates the Company's ongoing strategy to diversify its public charter school tenant base.

Other Gains

During the quarter, the Company reversed a liability that had been recorded in connection with the acquisition of Toronto Dundas Square in 2010 as the related payment was no longer expected to occur. This liability, totaling \$3.4 million, was reversed to transaction (costs) benefit where it was originally recorded.

Additionally, during the quarter, the Company sold a parcel of land adjacent to one of its public charter school developments in Queen Creek, Arizona for net proceeds of \$915 thousand and recognized a gain of \$330 thousand.

Both of the above gains have been excluded from FFO as adjusted.

Balance Sheet Update

The Company's balance sheet remains strong with a debt to gross assets ratio (defined as total debt to total assets plus accumulated depreciation) of 39% at March 31, 2014.

On March 26, 2014, the Company increased the size of its unsecured revolving credit facility from \$475.0 million to \$535.0 million and increased the size of its unsecured term loan facility from \$265.0 million to \$275.0 million, both pursuant to accordion features in the underlying loan agreements. As of March 31, 2014, the Company had \$20.4 million of unrestricted cash on hand and no debt outstanding under its unsecured revolving credit facility.

During the three months ended March 31, 2014, the Company issued 1,563,709 million common shares under the direct share purchase component of its Dividend Reinvestment and Direct Share Purchase Plan for total net proceeds after expenses of \$79.5 million.

Dividend Information

The Company declared regular monthly cash dividends during the first quarter of 2014 totaling \$0.855 per common share. This dividend represents an annualized dividend of \$3.42, an 8.2% increase over the prior year.

The Company also declared first quarter cash dividends of \$0.359375 per share on its 5.75% Series C cumulative convertible preferred shares, \$0.5625 per share on its 9.00% Series E cumulative convertible preferred shares and \$0.4140625 per share on its 6.625% Series F cumulative redeemable preferred shares.

Guidance

The Company is confirming its 2014 investment spending guidance in a range of \$500 million to \$550 million and revising its 2014 guidance for FFO as adjusted per diluted share from a range of \$4.12 to \$4.22 to a range of \$4.00 to \$4.10, primarily due to the sale of the public charter schools in April 2014 and the additional common share issuance in the first quarter.

Quarterly Supplemental

The Company's supplemental information package for the first quarter ended March 31, 2014 is available on the Company's website at <http://eprkc.com/earnings-releases-supplemental>.

(A) The National Association of Real Estate Investment Trusts (“NAREIT”) developed FFO as a relative non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP and management provides FFO herein because it believes this information is useful to investors in this regard. FFO is a widely used measure of the operating performance of real estate companies and is provided here as a supplemental measure to GAAP net income available to common shareholders and earnings per share. Pursuant to the definition of FFO by the Board of Governors of NAREIT, we calculate FFO as net income available to common shareholders, computed in accordance with GAAP, excluding gains and losses from sales or acquisitions of depreciable operating properties and impairment losses of depreciable real estate, plus real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships, joint ventures and other affiliates. Adjustments for unconsolidated partnerships, joint ventures and other affiliates are calculated to reflect FFO on the same basis. We have calculated FFO for all periods presented in accordance with this definition. FFO is a non-GAAP financial measure. FFO does not represent cash flows from operations as defined by GAAP and is not indicative that cash flows are adequate to fund all cash needs and is not to be considered an alternative to net income or any other GAAP measure as a measurement of the results of our operations or our cash flows or liquidity as defined by GAAP. It should also be noted that not all REITs calculate FFO the same way so comparisons with other REITs may not be meaningful. In addition to FFO, we present FFO as adjusted. Management believes it is useful to provide it here as a supplemental measure to GAAP net income available to common shareholders and earnings per share. FFO as adjusted is FFO plus provision for loan losses, costs (gain) associated with loan refinancing or payoff, net, preferred share redemption costs and transaction costs (benefit), less gain on early extinguishment of debt, gain (loss) on sale of land and deferred tax benefit (expense). FFO as adjusted is a non-GAAP financial measure. FFO as adjusted does not represent cash flows from operations as defined by GAAP and is not indicative that cash flows are adequate to fund all cash needs and is not to be considered an alternative to net income or

any other GAAP measure as a measurement of the results of the Company's operations, cash flows or liquidity as defined by GAAP.

The additional 1.9 million common shares that would result from the conversion of the Company's 5.75% Series C cumulative convertible preferred shares and the additional 1.6 million common shares that would result from the conversion of the Company's 9.00% Series E cumulative convertible preferred shares and the corresponding add-back of the preferred dividends declared on those shares are not included in the calculation of diluted earnings per share and FFO per share for the three months ended March 31, 2014 and 2013 because the effect is not-dilutive.
