(1) The operating results of the Company's public charter school portfolio for the three and six months ended June 30, 2019, include \$6.5 million and \$11.5 million in termination fees, respectively, and are included in all metrics in these columns except for total revenue from continuing operations. The remaining public charter school portfolio was sold subsequent to June 30, 2019.

Second Quarter Company Headlines

- **Strong Liquidity Position** - With over \$1.0 billion of cash on hand, it is currently estimated that the Company would have approximately six years of liquidity even if the elevated second quarter negative cash run rate were to persist.
- **Property Openings** - Approximately 88% of non-theatre properties are open as of August 4, 2020.
- **Restructured AMC Leases** - In exchange for agreeing with AMC to place 46 of the Company's 53 AMC leased theatres into a new master lease that reduces future restructuring risk and increases the average lease term by 9 years, the Company agreed to reduce annual fixed minimum rents by approximately 21%.
- **Collections** - Through August 4, 2020, customers paid approximately 21% and 28% of second quarter and July 2020 pre-COVID contractual cash rent and interest payments, respectively.
- **Customer Agreements** - The Company has reached resolution with customers representing 85% of its annualized pre-COVID contractual cash rent and interest payments, with no payment deferral for 18%, and deferral agreements for 67%.
- **Permanent Rent Adjustments** - Permanent rent adjustments are expected to lower annualized pre-COVID contractual cash rent and interest payments by approximately 5% to 7%, including the AMC rent reduction.

CEO Comments

“As the country continues to face extraordinary challenges related to the COVID-19 pandemic, we have taken a number of steps to manage through this difficult time. We have effectively fortified our balance sheet and maintained sufficient liquidity, while working with our customers to help facilitate re-openings and operations in this current environment, and ensuring a strong positioning for the long term,” stated Greg Silvers, Company President and CEO. “Importantly, we have reached agreements with the vast majority of our customers including our largest tenant, AMC Theatres, which provides us additional certainty going forward. A number of our customers have been reopening, and they are seeing visitors return and exhibit their desire to participate in such experiences. While the outlook remains uncertain as the pandemic persists, we look forward to the eventual reopening of all of our customers and remain confident in our strategy of focusing on experiential real estate.”

COVID-19 Response and Update

AMC Restructuring

On July 31, 2020, the Company entered into a Forbearance Agreement (“Forbearance Agreement”), a Master Lease Agreement (“the Master Lease”) and seven amended lease agreements (the “Transitional Leases” and collectively with the Master Lease, the “Leases”) with American Multi-Cinema, Inc. and certain affiliates (“AMC”) relating to 53 properties currently leased by the Company to AMC (the “Leased Properties”). The Company and AMC entered into the Master Lease relating to 46 theatres

("Master Lease Properties") and amended the Transitional Leases relating to seven theatres ("Transitional Properties"), each of which is effective July 1, 2020.

Under the Leases, the Company agreed to reduce total annual fixed cash rent by approximately 21%, or \$25.6 million, to \$95.9 million (including \$8.0 million of ground rent and the repayment of deferral amounts for the months of April, May and June, 2020 described below). The Company previously agreed to defer all of the fixed rent due under the Leases for the months of April, May and June 2020. The deferred amounts are included in the calculation of the new fixed cash rent of the Leases amortized over the first 14 years of the term of the applicable Lease or the expiration of the current term of the Lease, whichever is earlier. Additionally, the Master Lease has fixed escalators of 7.5% every five years on fixed rent excluding the portion attributable to deferred rent.

Pursuant to the Master Lease and the Forbearance Agreement, during the period of July 1, 2020 through December 31, 2020, AMC will pay percentage rent (15% of gross receipts) in lieu of fixed rent for the Leased Properties. The difference between the percentage rent paid and fixed rent due under the Leases represents an additional deferred amount that, beginning in February 2021, will be added to fixed cash rent and amortized over the first 14 years of the term of the applicable Lease or the expiration of the current term of the Lease, whichever is earlier. For the month of July, the Company expects no percentage rent given AMC theatres had not re-opened.

The Master Lease Properties have been divided into four tranches, with the initial term of each tranche expiring annually from June 30, 2034 to June 30, 2037. The Transitional Leases have expiration dates occurring between November 2026 and March 2029.

The Company believes that the AMC restructuring significantly improves the Company's long-term position with respect to AMC, while providing AMC with deferrals it needs during the pandemic and better performing theatres in the future. Specifically:

- The Master Lease was designed with the intention that the parties will respect the master lease characterization at all times, which the Company believes will enhance its position in the event of a reorganization proceeding regarding AMC,
- The lease terms on properties included in the Master Lease were increased by an average of nine years, and
- The Company has the ability to reduce its exposure to AMC through the option to terminate each of the seven Transitional Leases and re-brand or sell them with the cooperation of AMC.

The material terms of the agreements with AMC described above will be more fully described in the Company's Quarterly Report on Form 10-Q.

Collections and Property Openings

The Company's COVID-19 Task Force, an internal team comprised of individuals from across the Company, has been working diligently with customers negatively impacted by the pandemic to provide solutions for the parties' long-term mutual interests, including establishing appropriate repayment plans for deferred obligations and assisting these customers in establishing re-opening plans. The customers occupying substantially all of the Company's theatre properties are currently closed but most currently anticipate opening for business by the end of August subject to local restrictions. Approximately 88% of the customers in the Company's non-theatre portfolio are open for business as of August 4, 2020. Tenants and borrowers paid approximately 21% and 28% of second quarter and July 2020 pre-COVID contractual cash rent and interest payments, respectively. As many of the Company's customers remain temporarily closed or are only beginning to re-open, the Company has entered into agreements or is currently negotiating agreements to defer the rent and mortgage payments for substantially all of the customers that did not pay full rent or interest during the second quarter of 2020 and has classified tenants and borrowers (inclusive of AMC) into various categories described in the table below.

Additionally, as shown in the table below, during the quarter, the Company deferred approximately \$64.0 million of amounts due from customers that were booked as revenue and receivables, and approximately \$41.0 million that were not booked as revenue and receivables as the full amounts were not deemed probable of collection as a result of the COVID-19 pandemic. During the quarter, the Company reduced rental revenue by \$3.3 million due to contractual rent abatements and provided \$3.8 million in rent concessions. Permanent rent reductions are expected to total approximately 5% to 7% of annualized pre-COVID contractual revenue, inclusive of the AMC rent reduction discussed above.

Strong Liquidity Position

The Company remains focused on maintaining a strong balance sheet, strong liquidity and financial flexibility through the pandemic. The Company has no scheduled debt maturities until 2022 and over \$1.0 billion of cash on hand. As previously announced and further discussed below, the Company entered into amendments to the agreements governing its bank credit facilities and private placement notes in the second quarter of 2020 to, among other things, waive the Company's obligations to comply with certain covenants. The Company also temporarily suspended its monthly cash dividend to common shareholders subsequent to the common share dividend previously declared and payable on May 15, 2020 and suspended its previously disclosed share repurchase program. In addition, the Company continues to limit investment spending.

The Company's cash outflows from operations (which includes interest payments), less preferred dividends was approximately \$38.0 million during the second quarter. The Company anticipates having a lower quarterly cash burn rate subsequent to the second quarter as collections are expected to continue to improve; however, even at the elevated second quarter negative cash burn rate, the Company would have approximately six years of liquidity based on the ending cash balance at June 30, 2020 of over \$1.0 billion, and committed investment spending and anticipated maintenance capital expenditures totaling approximately \$103.0 million during the remainder of 2020 and 2021 (assuming that none of the Company's available cash would be used for the repayment of principal on the Company's indebtedness, either at maturity or upon an acceleration event).

Portfolio Update

The Company's total investments (a non-GAAP financial measure) were approximately \$6.7 billion at June 30, 2020 with Experiential totaling \$5.9 billion, or 89%, and Education totaling \$0.8 billion, or 11%.

The Company's Experiential portfolio (excluding property under development) consisted of the following property types (owned or financed) at June 30, 2020:

- 180 theatre properties;
- 56 eat & play properties (including seven theatres located in entertainment districts);
- 18 attraction properties;
- 13 ski properties;
- six experiential lodging properties;
- one gaming property;
- three cultural properties; and
- seven fitness & wellness properties.

As of June 30, 2020, the Company's owned Experiential portfolio consisted of approximately 19.4 million square feet, which was 97% leased and included \$39.0 million in property under development and \$22.7 million in undeveloped land inventory.

The Company's Education portfolio consisted of the following property types (owned or financed) at June 30, 2020:

- 69 early childhood education center properties; and
- 16 private school properties.

As of June 30, 2020, the Company's owned Education portfolio consisted of approximately 1.9 million square feet, which was 100% leased and included \$3.5 million in undeveloped land inventory.

The combined owned portfolio consisted of 21.3 million square feet and was 97.3% leased.

Investment Update

The Company's investment spending for the three months ended June 30, 2020 totaled \$11.7 million (bringing the year-to-date investment spending to \$53.6 million), and included spending on Experiential build-to-suit development and redevelopment projects.

Balance Sheet and Liquidity Update

At June 30, 2020, the Company's net debt to gross assets ratio (a non-GAAP Financial Measure) was 41%.

The Company had \$1.0 billion of unrestricted cash on hand and \$750.0 million outstanding under its \$1.0 billion unsecured revolving credit facility at June 30, 2020. The Company has no scheduled debt maturities until 2022 when its unsecured revolving credit facility comes due.

As previously announced, on June 29, 2020, the Company amended the agreements governing its bank credit facilities and private placement notes. The amendments modified certain provisions and waived the Company's obligation to comply with certain covenants under these debt agreements in light of the continuing financial and operational impacts of the COVID-19 pandemic on the Company and its tenants and borrowers. The changes are generally effective during the covenant relief period, which began at the execution of the amendment and end on the earlier of April 1, 2021 or when the Company provides notice that it elects to terminate the covenant relief period, subject to certain conditions. The loans subject to the modifications bear interest at higher rates during the covenant relief period, however, the rates will return to previous levels at the end of such

period, subject to certain conditions. The rates are subject to change based on long-term unsecured debt ratings, as defined in the agreements.

The share repurchase program previously approved by the Company's Board of Trustees (the "Board") was scheduled to expire on December 31, 2020, however, the Company suspended the program on June 29, 2020, the effective date of the covenant modification agreements. During the three months ended June 30, 2020, the Company repurchased 4,066,716 common shares under the share repurchase program for approximately \$106.0 million at an average price of \$26.06 per share. The repurchases were made under a Rule 10b5-1 trading plan.

The amendments to the agreements governing the Company's bank credit facilities and private placement notes also impose additional restrictions on the Company during the covenant relief period, including limitations on certain investments, incurrences of indebtedness, capital expenditures, payment of dividends or other distributions, and share repurchases, in each case subject to certain exceptions.

Impairment Charges

As a result of the COVID-19 pandemic, the Company reassessed the expected holding periods of certain properties during the six months ending June 30, 2020, and determined that the estimated cash flows were not sufficient to recover the carrying values of six properties. Accordingly, the Company recognized non-cash impairment charges of \$51.3 million, which were comprised of \$36.3 million of impairments of real estate investments and \$15.0 million of impairments of operating lease right-of-use assets at two of these properties. Additionally, the Company recognized other-than-temporary non-cash impairment charges of \$3.2 million on the Company's equity investments in three theatre projects located in China.

Dividend Information

The Board declared monthly cash dividends during the second quarter of 2020 totaling \$0.3825 per common share. As discussed above, the monthly cash dividend to common shareholders was suspended following the common share dividend paid on May 15, 2020 to shareholders of record as of April 30, 2020. The Company is restricted from paying dividends on its common shares during the covenant relief period, subject to certain limited exceptions, and there can be no assurances as to the Company's ability to reinstitute cash dividend payments to common shareholders or the timing thereof.

The Board also declared its regular quarterly dividends to preferred shareholders of \$0.359375 per share on its 5.75% Series C cumulative convertible preferred shares, \$0.5625 per share on its 9.00% Series E cumulative convertible preferred shares and \$0.359375 per share on its 5.75% Series G cumulative redeemable preferred shares.

Non-GAAP Financial Measures

Funds From Operations (FFO), Funds From Operations As Adjusted (FFOAA) and Adjusted Funds From Operations (AFFO)

The National Association of Real Estate Investment Trusts (“NAREIT”) developed FFO as a relative non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. Pursuant to the definition of FFO by the Board of Governors of NAREIT, the Company calculates FFO as net income available to common shareholders, computed in accordance with GAAP, excluding gains and losses from disposition of real estate and impairment losses on real estate, plus real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships, joint ventures and other affiliates. Adjustments for unconsolidated partnerships, joint ventures and other affiliates are calculated to reflect FFO on the same basis. The Company has calculated FFO for all periods presented in accordance with this definition.

In addition to FFO, the Company presents FFOAA and AFFO. FFOAA is presented by adding to FFO costs associated with loan refinancing or payoff, transaction costs, severance expense, preferred share redemption costs, impairment of operating lease right-of-use assets, termination fees associated with tenants' exercises of public charter school buy-out options and credit loss expense and subtracting deferred income tax (benefit) expense. AFFO is presented by adding to FFOAA non-real estate depreciation and amortization, deferred financing fees amortization, share-based compensation expense to management and Trustees and amortization of above and below market leases, net and tenant allowances; and subtracting maintenance capital expenditures (including second generation tenant improvements and leasing commissions), straight-lined rental revenue (removing impact of straight-lined ground sublease expense), and the non-cash portion of mortgage and other financing income.

FFO, FFOAA and AFFO are widely used measures of the operating performance of real estate companies and are provided here as a supplemental measure to GAAP net income available to common shareholders and earnings per share, and management provides FFO, FFOAA and AFFO herein because it believes this information is useful to investors in this regard. FFO, FFOAA and AFFO are non-GAAP financial measures. FFO, FFOAA and AFFO do not represent cash flows from operations as defined by GAAP and are not indicative that cash flows are adequate to fund all cash needs and are not to be considered alternatives to net income or any other GAAP measure as a measurement of the results of our operations or our cash flows or liquidity as defined by GAAP. It should also be noted that not all REITs calculate FFO, FFOAA and AFFO the same way so comparisons with other REITs may not be meaningful.

The following table summarizes FFO, FFOAA and AFFO for the three and six months ended June 30, 2020 and 2019 and reconciles such measures to net income available to common shareholders, the most directly comparable GAAP measure:

Amounts above include the impact of discontinued operations, which are separately classified in the consolidated statements of income for all periods.

(1) Impairment charges recognized during the three and six months ended June 30, 2020 totaled \$51.3 million, which was comprised of \$36.3 million of impairments of real estate investments and \$15.0 million of impairments of operating lease right-of-use assets.

(2) Includes maintenance capital expenditures and certain second generation tenant improvements and leasing commissions.

The conversion of the 5.75% Series C cumulative convertible preferred shares and the 9.00% Series E cumulative convertible preferred shares would be dilutive to FFO and FFOAA per share for the three and six months ended June 30, 2019. Therefore, the additional common shares that would result from the conversion and the corresponding add-back of the preferred dividends declared on those shares are included in the calculation of diluted FFO and FFOAA per share for these periods.

Net Debt

Net Debt represents debt (reported in accordance with GAAP) adjusted to exclude deferred financing costs, net and reduced for cash and cash equivalents. By excluding deferred financing costs, net and reducing debt for cash and cash equivalents on hand, the result provides an estimate of the contractual amount of borrowed capital to be repaid, net of cash available to repay it. The Company believes this calculation constitutes a beneficial supplemental non-GAAP financial disclosure to investors in understanding our financial condition. The Company's method of calculating Net Debt may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

Gross Assets

Gross Assets represents total assets (reported in accordance with GAAP) adjusted to exclude accumulated depreciation and reduced for cash and cash equivalents. By excluding accumulated depreciation and reducing cash and cash equivalents, the result provides an estimate of the investment made by the Company. The Company believes that investors commonly use versions of this calculation in a similar manner. The Company's method of calculating Gross Assets may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

Net Debt to Gross Assets

Net Debt to Gross Assets is a supplemental measure derived from non-GAAP financial measures that the Company uses to evaluate capital structure and the magnitude of debt to gross assets. The Company believes that investors commonly use versions of this ratio in a similar manner. The Company's method of calculating Net Debt to Gross Assets may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

EBITDAre

NAREIT developed EBITDAre as a relative non-GAAP financial measure of REITs, independent of a company's capital structure, to provide a uniform basis to measure the enterprise value of a company. Pursuant to the definition of EBITDAre by the Board of Governors of NAREIT, the Company calculates EBITDAre as net income, computed in accordance with GAAP, excluding interest expense (net), income tax (benefit) expense, depreciation and amortization, gains and losses from disposition of real estate, impairment losses on real estate, costs associated with loan refinancing or payoff and adjustments for unconsolidated partnerships, joint ventures and other affiliates.

Management provides EBITDAre herein because it believes this information is useful to investors as a supplemental performance measure as it can help facilitate comparisons of operating performance between periods and with other REITs. The Company's method of calculating EBITDAre may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. EBITDAre is not a measure of performance under GAAP, does not represent cash generated from operations as defined by GAAP and is not indicative of cash available to fund all cash needs, including distributions. This measure should not be considered an alternative to net income or any other GAAP measure as a measurement of the results of the Company's operations or cash flows or liquidity as defined by GAAP.

Adjusted EBITDA

Management uses Adjusted EBITDA in its analysis of the performance of the business and operations of the Company. Management believes Adjusted EBITDA is useful to investors because it excludes various items that management believes are not indicative of operating performance, and that it is an informative measure to use in computing various financial ratios to evaluate the Company. The Company defines Adjusted EBITDA as EBITDAre (defined above) for the quarter excluding severance expense, credit loss expense, transaction costs, impairment losses on operating lease right-of-use assets and prepayment fees.

The Company's method of calculating Adjusted EBITDA may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. Adjusted EBITDA is not a measure of performance under GAAP, does not represent cash generated from operations as defined by GAAP and is not indicative of cash available to fund all cash needs, including distributions. This measure should not be considered as an alternative to net income or any other GAAP measure as a measurement of the results of the Company's operations or cash flows or liquidity as defined by GAAP.

Reconciliations of debt and total assets (all reported in accordance with GAAP) to Net Debt, Gross Assets, Net Debt to Gross Assets, EBITDAre and Adjusted EBITDA (each of which is a non-GAAP financial measure) are included in the following tables (unaudited, in thousands):

Total Investments

Total investments is a non-GAAP financial measure defined as the sum of the carrying values of real estate investments (before accumulated depreciation), land held for development, property under development, mortgage notes receivable (including related accrued interest receivable), investment in joint ventures, intangible assets, gross (before accumulated amortization and included in other assets) and notes receivable and related accrued interest receivable, net (included in other assets). Total investments is a useful measure for management and investors as it illustrates across which asset categories the Company's funds have been invested. Our method of calculating total investments may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. A reconciliation of total investments to total assets (computed in accordance with GAAP) is included in the following table (unaudited, in thousands):
